LTIMindtree | Technical Interview – Round 1

1 message

Dear **Ajay Pratap Singh**,

We hope this message finds you well.

We are excited to invite you to the next phase of **LTIMindtree's** recruitment process. This round will be conducted through **Berri's Mastermind** — an advanced AI-enabled interview platform designed to deliver a fair, structured, and efficient evaluation experience.

Interview Overview

As part of our continued innovation in recruitment, this AI-enabled bot interview will:

- Evaluate your technical skills, problem-solving abilities, and role-specific competencies — including coding questions.
- Analyze your responses using AI tools that also assess relevant experience and skills based on your resume and application.
- Be proctored using AI to maintain fairness and integrity throughout the process.

Interview Window

Duration:
Start: 2025-10-01 09:00 AM
End: 2025-10-02 08:59 AM

Setup your Pre-Interview

Start Your Interview

(Your unique interview link is provided above. Please complete your interview within the mentioned timeframe.)

Interview Guidelines and Setup

- Ensure you are in a quiet, well-lit environment with minimal distractions.
- Have a notepad and pen ready.
- Use a laptop or desktop (not mobile devices).
- Test your camera and microphone prior to starting the interview.
- Close all unnecessary applications or tabs before starting.
- A stable internet connection is critical for a seamless experience.
- Keep your camera ON during the interview, positioned at eye level with proper lighting.

System Requirements

Supported OS: Windows 7+, MacOS, Ubuntu
Preferred Browser: Google Chrome (latest version)
Users on other browsers or OS may face limitations. Ensure your system and browser are updated.

Recording and Proctoring Notice

Note: Please ensure that system audio sharing is enabled by selecting the 'Also share system audio' option in the screen sharing settings.

This interview will be recorded for fair evaluation purposes. The platform includes automated proctoring features that monitor:

- Facial expressions, webcam being disabled, face not visible, focus shifts, multiple faces, lip sync discrepancies, and browser tab changes.
- Impersonation attempts or unusual activity.

These checks are reviewed by our human recruitment team before making any decisions. We request that you maintain the integrity of the process, as any violation may lead to disqualification.

Consent and Support

By partaking, you acknowledge that the assessment is facilitated through an automated platform without direct human interaction.

We appreciate your time and look forward to your participation. If you experience any technical issues or have questions, contact us at support@berribot.com.

Notice: I have read, understood, and agree with the above notification and hereby consent to proceed with the application-based assessment. If you wish to opt out of AI interview process, click here to opt out.

Privacy Policy

To understand how LTIMindtree collects, uses, and processes your personal data, you can refer to the privacy policy for job applicants.

Your data collected during this assessment will also be stored by the third-party entity to whom the application belongs. To understand how the third party collects, uses, and processes your assessment data, you can refer to the Berribot Privacy Policy.

Best regards,
Berribot Team
